

Rencool RTK5 Rooftop Unit

The RTK5 is designed to suit all types of mobile equipment for Australian conditions with Tough external and internal construction.

Slimline in design and providing high cooling capacity the RTK5 is the best solution and latest Technology in Rooftop Air Conditioning systems

The **Rencool RTK5** Rooftop Air Conditioner is the lowest profile ever built on the Australian market. This reduces drag whilst driving and also good clearance required for small and large machinery.

The inside plenum incorporates easily removable return air filters allowing quick servicing of the filters. Very low servicing unit with self cleaning condensor coil, makes it ideal for heavy machinery applications also to suit Truck, Earthmoving, Mining Equipment, Motorhomes, Small people movers and more.

With its High Cooling capacity of 18 000 BTU and Slim design it makes the perfect choice in Rooftop systems for Australian mobile vehicles.

Features & Specifications

- 5200 watts of cooling power
- 12 & 24 volts
- Strong steel construction
- Copper Evaporator & Condensor coils
- High capacity Fans
- Low profile design
- Easy Installation
- Low servicing
- Ideal for Trucks, Machines & Motorhomes

RENCOOL RDK5 Rooftop Unit

The unit main frame is constructed from 2mm steel and Copper Tube & Fin Evaporator and Condensor coils.

The RTK5 has a strong impact cover designed to with stand all road and off road conditions. With its compact design it allows the unit to be fitted to the most difficult installations. The unit only requires small two cut-outs so not risking roof damage. The unit also has a High & Low pressure cut-out and twin thermostats to prevent ice ups under long duration use. The inside Plenum is also slimline providing good headroom for the operator in small applications.

Specifications :

Evaporator airflow: 650 m³/h

Condensor airflow: 1800 m³/h

Cooling capacity: 5.25kW (18000BTU)

Weight :

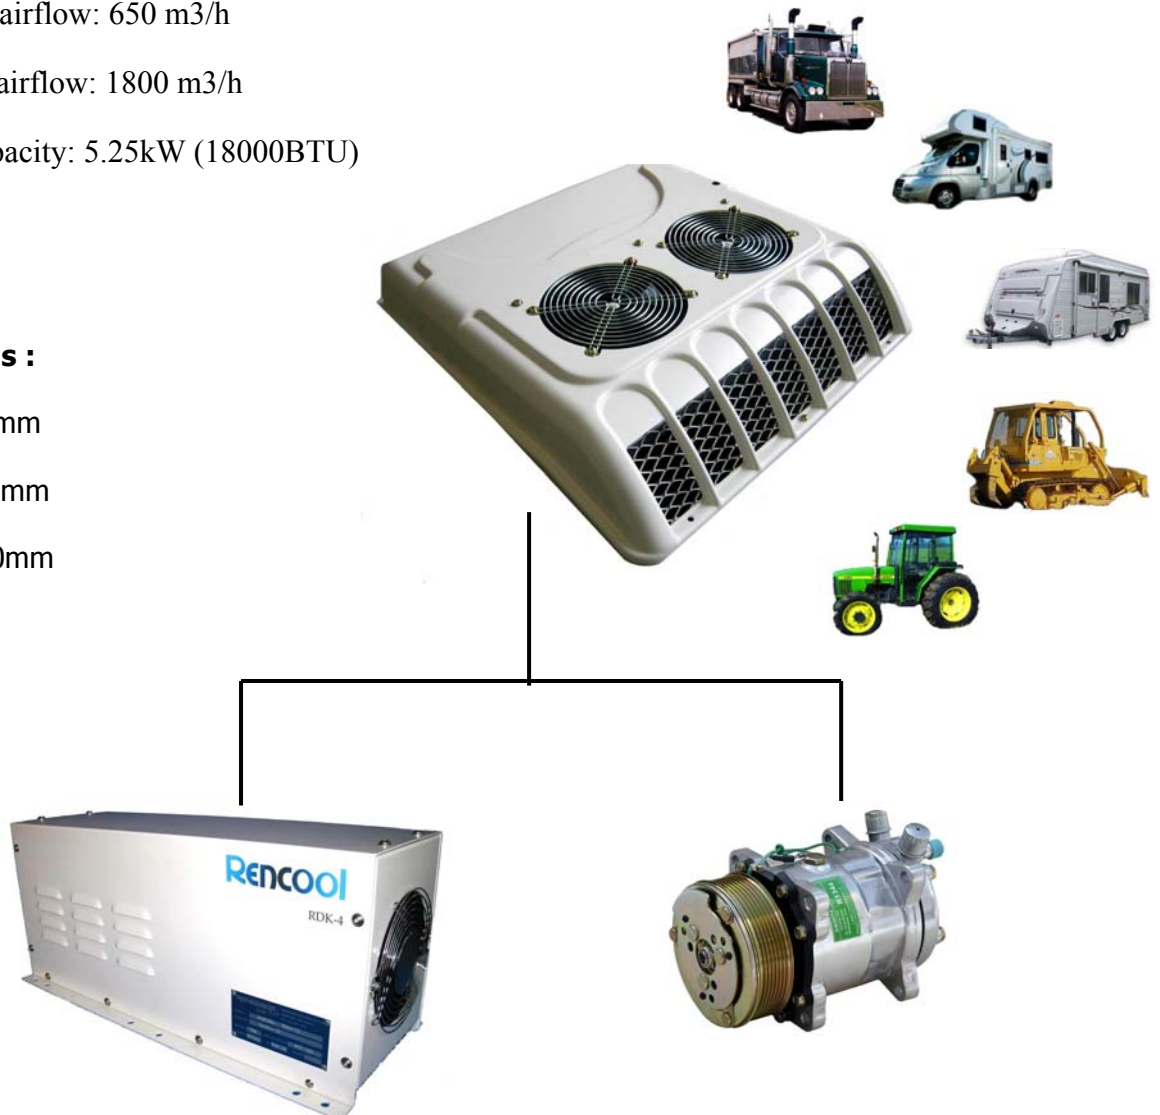

28 kg

Dimensions :

Width : 754mm

Height : 162mm

Length : 760mm

Either a Engine compressor or the
the **RENCOOL** RDK4 Drive unit
